

# SUNROOF SHADE INSTALLATION GUIDE

**!** **AVOID** use of sunshade when driving vision is impaired

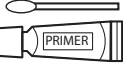

## Parts List

L-clip  
x 6  
(Spare x 2)

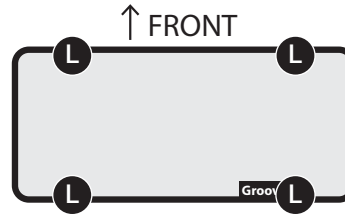

Alcohol  
Pad x 1

Primer x 1

## Recommended Clip Installation Positions

**L** - Clip Positions

## Installation Guide

**!** Apply primer **ONLY** if surface has been treated or polished

**1** The position of the magnets can be felt by running your finger over the top side of the sunshade's frame. You will feel an indentation on the frame and that is the position of the magnet.

**2** Place the L-Clips at the magnet locations of the sunshade.  
*Note: Do not remove protective layer on adhesive tape*

**3** Place sunshade with the L-clips attached to the panel of the sunroof to find the position for the sunshade and L-clips.

**4** *Do not remove protective layer on adhesive tape*

**Excluded**  
Adhesive tape

Use adhesive tape (not included in set) to mark the location where the L-Clips will be placed.

**5** Clean installation points with alcohol pad. Wait - 30 seconds.

**6** Apply primer at installation points. Wait - 30 secs. The purpose is to increase adhesive efficiency between surface and tape.

**7** Attached L-Clips at tape label positions

Sunroof window glass  
Panel

**8** Install sunshade

Sunroof window glass  
Panel
